# Chairman's Foreword

**Richard Tromans**
Founder | Artificial Lawyer

**Welcome** to Legal Innovators – after the great success of the inaugural event, Legal Innovators will now take place over two days on **21st and 22nd of October 2021 at etc venues, St Paul's, London, UK.**

The **FIRST DAY** will focus on **law firms and legal services businesses,** and how they are driving innovation.

The **SECOND DAY** will focus on **innovation among in-house legal teams and legal operations professionals.** It will also explore the clients' evolving relationship with a growing range of legal service providers.

## Legal Innovators is for learning, sharing and networking.

It's for everyone who wants to learn about this increasingly important subject area that is steadily reshaping the legal market. Whether you are a Managing Partner of a law firm, a General Counsel inside a company, a professional focused on technology and legal services delivery, or a young lawyer, **there is something for you at Legal Innovators.**

*An example of some of the topics that will be explored on the day by our fantastic group of experts includes:*

- **Disaggregating the Law** – getting the right people and tech to do the right things.
- **Beyond Contract Management** – using contract data to drive business insights.
- **Inhouse Economics** – how legal spend pressure is changing working practices.

Legal Innovators is for everyone who wants to learn, to share, and meet their peers. It's for people just starting to explore this area, as well as for those who are already very experienced but want to know what is now 'market standard' in this rapidly changing field.

*Legal Innovators is also a conference where you are very welcome to join in and ask questions.*

Across the two days you will hear from an array of great speakers, ranging from people at major law firms, to regional and boutique firms as well, to General Counsel, the Big Four, ALSPs and Law Companies, and as you would expect, experts from some of the world's leading legal tech companies. And **you will be very welcome to ask them questions and join in the discussion**.
