

HBCU

Library Alliance

The HBCU Library Alliance is delighted to share activities that support our mission to develop library leaders, preserve collections and plan for the future.

The Building Capacity HBCU - "Fundamentals of Collection Care Series 2" virtual webinars is scheduled to begin the week of February 7th for four weeks. Sessions will be presented on topics including preservation best practices, an introduction to digitization and preserving photographic collections. Project partner Conservation Center for Art & Historic Artifacts will deliver virtual sessions. This certificate program is open to all library employees, work study students, and interns.

The HBCU Library Alliance/CLIR team is interviewing candidates for contract positions for the Andrew W. Mellon Foundation-funded Creating Access project. Consultants will gather information to outline shared and diverging values, priorities and needs related to creating access to special collections and archives at member libraries.

Let's Celebrate Each Other!

Respectfully,

Sandra Phoenix, Executive Director

Help us continue the important work of HBCU Libraries.
