Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broken stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

Money Tree

Light
I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light.

Water
I don't want my roots to stay wet, so let the top inch or two of the potting soil dry before you water me again.

Food
I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

Features
I'm associated with good luck and positive feng shui!

Growing tips
I prefer average to above-average relative humidity levels. Repot me every year or two, as my roots fill at least 75% of the pot.

Give me friends! I play well with:
Peace Lily , Lucky Bamboo, Bromeliad
