Date of use	3 Years

● I. Product Functions

1. Hair Dyeing Function

This Dark Brown hair dye shampoo effectively changes hair color to achieve your desired Dark Brown hair effect. Its professional dye formula penetrates deep into the hair shaft, ensuring long-lasting and even coloring. It easily covers gray hair, whether in small amounts or large areas, leaving you with naturally dark and shiny hair.

2. Cleansing and Conditioning Function

As a shampoo at its core, it provides basic hair-cleansing benefits, effectively removing dirt and oil from the scalp and hair to maintain a fresh and healthy scalp. Additionally, the shampoo contains softening and moisturizing ingredients that nourish hair during the dyeing process, reducing damage and preventing dryness and split ends. This ensures hair remains healthy and glossy after coloring.

3. Protective Function

Certain ingredients in the shampoo form a protective film on the hair surface. This film not only effectively blocks UV damage to reduce hair fading and dryness caused by sun exposure but also defends against other environmental aggressors, providing constant care for your hair.

● II. Product Specifications

Single Bottle (500ml): Purchasing once allows for long-term use, meeting your needs for frequent hair dyeing without the need for frequent restocking.

● III. Product Advantages

1. Easy to Use

The operation is as simple as using regular shampoo. Apply it to wet hair, gently rub, and rinse with water—no complicated mixing processes or professional skills required. You can easily complete hair dyeing at home, saving you the time and cost of going to a salon.

2. Quick Color Development

Compared to traditional hair dye products, our Dark Brown hair dye shampoo colors more easily. It can achieve uniform Dark Brown hair in a short time—for some products, obvious results can be seen in just 5 minutes—quickly meeting your needs for hair color changes.

3. Long-Lasting Effect

The special formula ensures long-lasting coloring, which can last for weeks or even months. There is no need for frequent re-dyeing, allowing you to maintain charming Dark Brown hair for a long time.

4. Mild and Nourishing

Made with natural plant extracts, it is gentle and non-irritating to the scalp. Rich in nutrients such as vitamin E and protein, it deeply nourishes hair, repairs damaged hair quality, enhances hair toughness, and makes hair smoother, easier to comb, and healthy with a shiny glow.

5. Versatile for Multiple Scenarios

Whether it's young people pursuing fashion trends who want to change their hair color to

express their personality, middle-aged individuals hoping to enhance their appearance through hair dyeing, or elderly people looking to cover gray hair, this Dark Brown hair dye shampoo is the ideal choice. It meets the needs of different age groups for Dark Brown hair.

● IV.HOW TO USE

Step1: Please keep your hair dry before starting. Wear gloves and to prevent your nails and clothing from staining.

Step2: Press the pump until you get enough dosage. Rub the liquid to make foam. You may need to pump out some air to start the flow.

Step3: Apply the mix evenly on hair. You will need to apply 2-3 fluid ounce of product in total to complete a hair dye.

Step4: Make it stay on hair for 20-25 minutes after application. If the color cover is not perfect please let it stay for 25-30 minutes during your next dye.

Step5: Rinse and dry your hair

● V.PATCH TEST 48 HOURS PRIOR TO USE

1. Remove earrings, take proper amount of the product applied to the skin behind the ear on the coin-sized area with a cotton swab, apply repeated 2 times after it dry naturally.
2. Do not wash away the product until 6 hours, and do not cover or touch the areas that had been applied the product.
3. During the period of patch test, if any redness, itching, swelling or other symptoms happen, Please do not use this product to prevent you from allergies. You can ask us for a full refund.

● VI.SECURITY TIPS

- 1, Prohibited people: scalp breakage, eczema patients, liver and kidney insufficiency and people with a family history of cancer should be cautious.
- 2, Frequency of use: It is recommended to dye hair every 4~6 weeks, and no more than 4 times per year to reduce the cumulative risk.
- 3, Emergency treatment: If burning or swelling occurs after dyeing, rinse immediately and seek medical attention.

● Precautions

★ Avoid contact with eyes. If hair dye accidentally gets into eyes, immediately flush with water for 15 minutes.

★ Store in a cool and dry place, out of reach of children.
