Thank you for choosing our product! To ensure bring you a better user experience, please kindly read this manual first and check the description of your phone or electronic equipment at the same time.

Product Overview

Specification

Name	AMZ Invisible Car Charger
Model No.	AV817
Input	DC 12-24V =
USB Output	5V = 3A, 9V = 2A, 12V = 1.5A
TYPE-C PD	5V = 3A, 9V = 3A, 12V = 2.5A
Total Output	30W
Net Weight	≈ 34g
Size	≈ 46x20.7x27mm

Charging Method

1. Insert this product into the jack of car cigarette lighter after the car started.
2. Charge the devices by connecting your equipment and car charger with a charging cable.

Product Features

1. Invisible car charger is designed with elastic contacts, firmly fastened to fit different sizes of cigarette lighter and power port. It can withstand 12V-24V wide-range voltage input and is compatible with most prevailing models on the market;
2. Equipped with circuit master chip, provide short-circuit, over-heat, over-voltage and over-current protection.
3. Quick charge identification: Support PPS/PD3.0/PD2.0/QC3.0/QC2.0, AFC, SCP, PE2.0/PE1.1, SFCP, BC1.2DCP mode, Apple/Samsung heavy current charging mode identification, Support low voltage DC.
4. Zinc alloy joint shell, integrated molding, fine sandblasting, anodized surface, first-class quality appeal.

Safety Instructions

1. Before you use the product please read the manual carefully and keep it properly.
2. Do not disassemble or refit the product by yourself.
