

Shark[®]
VACMOP[™]
Cordless Hard Floor System

PRO TIPS

VAC THE DRY, MOP THE WET

VACMOP™ disposable pads are designed for both vacuuming up dry debris and wet mopping.

ADJUST THE ANGLES

When dirt or sticky debris along a wall are giving you trouble, try approaching the mess head-on, pulling it in at the center of the nozzle.

KNOW WHEN TO START FRESH

Vacuuming up liquids, or vacuuming with the Dirt Chamber full, will lead to reduced suction or no suction. Change the pad when this occurs to maintain Shark's powerful suction.

KEEP IT ON THE HARD FLOOR

The VACMOP™ is designed for sealed hard floor cleaning—leave the carpets to our other products.

(Find our best in carpet cleaning at sharkclean.com)

NO STREAKS, NO PROBLEM

Use only Shark® Cleaner with the Shark® VACMOP™ for a clean, streak-free floors.

SPRAY LIKE YOU MEAN IT

Powerful spray has quite a reach—aim it where you need it to take on those stuck-on messes.

OFF YOUR FLOOR, INTO THE PAD

The Dirt Chamber in every VACMOP™ pad locks away debris, dirt, hair, and more. Drop the pad and all the mess into the trash with the click of a button.

HEADLIGHT IQ

When the VACMOP™ is in use, the motion sensor will automatically activate the headlights. After 10 seconds of inactivity, the headlights will turn off automatically.

*Only available on the VM252
