

2025 DELAWARE VALLEY BY THE NUMBERS

Nemours Children's Health: The Impact of Our Efforts

As one of the largest integrated children's health systems in the U.S., we are committed to improving the health and well-being of children, today and for generations to come. Our comprehensive Whole Child Health model delivers world-class medical care inside our walls and partners with families, schools, and communities to support children's physical, social, and emotional health outside our walls.

Across the Delaware Valley, we provide:

Pediatric primary, urgent, and specialty care

Advocacy and resources to support children's health in our communities

Groundbreaking research to advance treatments

2025 Patient Care Highlights

At Nemours Children's Health, every number tells a story of hope, healing, and exceptional care:

228,266 Unique Patients were cared for at our locations.

976,836 Patient Visits were completed across the Delaware Valley.

331,164 Primary Care Visits strengthened access to preventative and coordinated care.

7,813 Hospital Admissions provided children with advanced pediatric care and specialized services.

58 International Patients from **27 Countries** traveled to Nemours for our expert care.

54,427 Emergency Department Visits offered timely care during life's urgent or unexpected moments.

2,066 Emergency Medical Transports brought children safely to our doors.

14,853 Surgeries were performed with precision and compassion.

42,624 Telehealth Visits kept care accessible anytime, anywhere.

144,934 Radiology Images supported accurate diagnosis and informed clinical decision-making.

Nemours Investment in Research

In the Delaware Valley, we're shaping the future of children's health through discovery and innovation.

THE COMMITMENT

276 Research Associates supporting vital work

444 Published Papers sharing findings with the world

THE WORK

220 Grant-funded Studies driving innovation

279 Clinical Trials advancing pediatric care

16 Nurse-led Research Studies bringing bedside insights to science

Innovation Spotlights

At Nemours, innovation means meeting children where they are, in their schools, their homes, and through the digital tools and trusted resources families rely on every day.

REIMAGINING WHERE CARE HAPPENS

Integrated Behavioral Health supported **4,000 Children** with care delivered conveniently in primary care and their schools.

17 School-based Health Centers brought medical care in dedicated clinic spaces within schools, helping keep kids healthy without disrupting family routines.

Advanced Care at Home launched in December, bringing advanced outpatient care into the homes of **5 children** with complex medical needs and surrounding families with comfort, continuity, and 24/7 support.

REIMAGINING HOW CARE IS DELIVERED

90 babies safely born to moms with high-risk pregnancies through our Advanced Delivery Program, which coordinates specialized care that would otherwise require families to navigate multiple providers alone.

Our first-of-its-kind **Global Budget Model** delivered proactive, coordinated preventive care to more than **123,000 Delaware children**, creating a system designed to keep kids well.

Proud to be the first pediatric clinically integrated network in Delaware, leading the way in coordinated, high-quality care.

Community Support

We believe in giving back:

184,000 Children and Families were served through more than **200 community programs** supported by Nemours.

116,000+ Children and Families were served through **\$925,000 in Investment Partnerships**.

The Community Funding Program **supported 18 projects** addressing local needs, **investing \$88,000 in the community**.

702 Community Volunteers gave care and comfort through **56,611 Volunteer Service Hours** in our hospital and clinics.

4,206 Associate Volunteer Hours were dedicated to serving our communities.

42,750 Nemours Estate Visitors enjoyed the beautiful grounds and **4,373 participated in Well-being programs**.

32 Animal-assisted Activities Teams brought joy to **2,399 Patients** through **542 hospital visits**.

Sports Partner: **Philadelphia Phillies**.
